

Temporary Transformation Payments (TTP)

What is the Temporary Transformation Payment?

Every year your National Disability Insurance Scheme (**NDIS**) Package is looked at to see what your supports cost you.

At times the National Disability Insurance Agency (**NDIA**) may change these costs to make sure you get the support you need.

On **1st July 2019** the NDIA added a new cost called the Temporary Transformation Payment also known as **TTP**

The **TTP** does not cost you any money as it is paid for by the **NDIS**

The **TTP** allows service providers, such as Accuro Homecare, to continue to give you **the best quality care**

The **NDIS** pays this directly to your service provider, such as Accuro Homecare

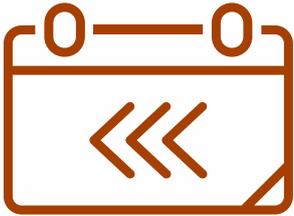

This means you **can still have all** of the same supports as you did before

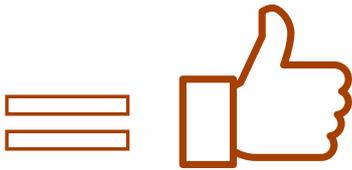

How does the TTP work?

The **NDIS** pays for the **TTP** in **2 different ways**

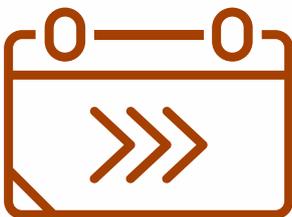

If you started your NDIS Participant Plan **before 1st July 2019**, your money has already been increased.

You do **not** need to do anything.

OR

If you started your NDIS Participant Plan **after 1st July 2019**, you can ask for more money from the **NDIA**.

Your Coordinator of Supports (**COS**) can help you with this.

If you are running **low on money** in your **NDIS plan** to pay for supports, or need to apply for more, your **COS** can help you

If you do not want to pay for the **TTP** you have the **right to choose** another service provider.

If you have any questions you can speak with your **COS** or contact the **NDIA**.
